### BARTINE.

Hon. H. F. Bartine, as he appears in the Carson News of the 18th just., ranges himself in line with the most aggressive enemies of silver in both the old parties and advocates the fighting out of the silver war on party lines, while the principles and legislative policies of both are against free coinage. He also ranges himself in line with the controlling goldbug element in each party in trying to make the tariff the leading issue and the paramount question before the country, when every schoolboy in America, who has advanced beyond the third reader, knows that practically there is no difference in the principles of the two parties on this question. Both are in favor of protecting certain classes of industries. The Republican party wants to protect those trusts, combinations and clans in which their leaders and campaign contributors have the controlling interests; while the Democratic party wants to einch the above class of Republican industries and protect only that class of trusts and combines of capital in which its leaders and its party contributors have the control, This and this alone is the only difference between the old parties on the tariff question, so far as their practice is concerned, however much they may differ in professed theory and fulminating platforms to hoodwink, deceive and defraud the people. Mr. Bartine knows that the goldbug element in both the old parties will sunder party ties and destroy party itself to defeat free coinage, but he is willing that free comage shall be defeated, the gold standard maintained, contraction of the currency continued, want and misery, disaster and bankruptcy en- | 5 cents a bottle. tailed upon the country in order to maintain his party organization. His motto is "get free coinage if we can in the sweet bye and bye, but party discipline at all hazards."

Let Mr. Bartine and the other mortal nine of his way of thinking be assured that the people of Nevada will not put their necks in this political and suicidal noose, Gold, \$1 58. -Silver State.

The people should bear in mind that the Populists are the unswerving friends of silver, and while their may be a plank in their platform that every Nevada silver man does not endorse, one of their cardinal principles is the free coinage of silver. They have no gold trust upon which to draw for esmpaign funds, no Federal officers to assess, nor shoddy manufacturers from which to "fry fat," but rely exclusively upon the masses in their fight with the Wall street combine, and all who believe that the interests of the country would be best subserved by having men who are not under the control of Wall street hold the balance of power in the next House of Representatives, should contribute more or less in proportion to their means, to secure that end .- Journal.

The leader of the April Forum will be a candid, and impartial, though frack and sharp, review of the first year or Mr. Cleveland's Administration, and of Democratic control of the Government. The writer is anonymous but it is so plainspoken that the article will doubtless provoke widespread discussion and comment.

### Mrs. Stanford to Witndray

Since the strival of C. P. Huntington in San Francisco rumors are current that Mrs. Stanford has made a demand for a return of securities belonging to her deceased husband's estate, as she is in need of \$5,000,000 or more to carry out the designs of the late Senator.

In an interview Mr. Huntington is quoted as saying that the withdrawl of the Stanford interest in the Southern Pacific Company would not result in crippling its resources in any manner, but that it might prove a benefit, as it would result in infusing some new blood into the corporation.

### A Law Abiding Syndicate.

What has become of that syndical ormed for the purpose of having the Corbett-Jackson fight in Nevada/-

Alf Chartz, who is a member of he syndicate, says the \$50,000 subscribed to secure the fight was all paid and deposited in the Nevada Bank, but as the members of the syndicate are law-abiding citzens and the Governor, claiming the tight would be contrary to the laws of the State, they did not propose to enter into conflict with Executive authority and abandoned the idea of securing the fight.-Tribune.
